

2006-The 8 Universal Year

“Manifestation of our highest ideals in form”

When we are infused with the Divine, through acts of giving and receiving love, we are poised to manifest love into action from our highest and truest nature.

As I sit to write this, I am aware that though my focus is a spiritual one, the state of our world has my attention. There is so much potential to right the wrongs if each of us takes one action this year that makes a difference in the lives of others.

2005, the 7 year, asked us over and over again, “is love the energy that can heal the world and what is your part in that healing?” The 7 clearly showed us that for every action (or non-action) there is a reaction. Hurricane Katrina was a re-action to our natural world being out of balance and then the inept actions of those who could have made a significant difference. The lack of immediate, prepared, compassionate action was clearly a result of individuals not having their attention in the right place. Complacency is one powerful aspect of the passive negative ego. 2005 was full with experiences of The Cross (7): Life and Death-Spirit and Matter. Life and death were in front of our eyes and ears every day. The 7’s job is to show us where we are out of alignment with Universal principals such as truth and justice. We had many heartbreaking examples; we have been shown~ there can be no more pretending (7).

As we stand at the gate of 2006, one of the best things we can do is study our beliefs and our behaviors. The 8 is an infinite flow of “as above-so below”. What we believe, and therefore where we express our energies, will be amplified in our personal lives, our communities and the world. If there are negative ideas that have power over us, let us burn those in the fire of compassion and dwell in a heart and mind that is clearer and cleaner, thereby inviting the 8 to manifest and empower that which is most sacred and holy to us. In this way, we will be part of the solution. Each of us has dreams, desires, longings, talents and abilities, and of course, challenges to these aspects. The 8’s gift is to assist us in accessing our deeply personal dreams so we may manifest them, bring them into form on an earth that needs all the light and divine power she can get.

In an 8 Universal year the financial markets could go into turmoil, because the spiritual laws governing money have not been adhered to. Look for more to come to light about big payoffs and corruption. Oil, land, goods and services could take a hit, particularly in the U.S. All we have any control over is how we respond to these necessary changes. The old idea of authority will be challenged. The profit driven economy that has created the haves and the have-nots will bleed. We all must learn to live with less so that others may live. No one “out there” is going to fix this problem but the 8 will give the world great opportunities to see the issues more clearly and hopefully begin to deal with these from a more humane perspective.

On a positive note, the 8 will assist us in manifesting pieces of solutions to world hunger, environmental health, education and poverty. Individuals will strengthen their focus and push against the fear and greed based body politic. There will emerge some new leadership. There is opportunity here for corporations to manifest a new model, to use their power in ways that directly serve the planet. Look at Bill and Melinda Gates, now there's a model!! There is more than enough to go around for everyone on the planet. Hopefully the 8 will show us how to manage our resources in service to that fact.

The top of the 8 represents "Empowerment", the embodying of spiritual consciousness. The bottom of the 8 expresses that consciousness into the world. These energies flow in an infinite dance of exchange. The 8 will always amplify where the greatest intensity of energy is. The beliefs that we focus on, over and over again, will be the movie that our life re-plays. In an 8 year that movie could be a more creative and productive life. Hopefully the 8 will empower enough truth to get us out of this war in Iraq before more people die in service to the wrong ideals. Let us hold true to the axiom "right thought- right action", a key for peace and success.

Do your forgiveness work. Let go of old hurts and disappointments. Let us not amplify the victim, the martyr, the guilt's and fears. They are of no service to us now. Don't waste time. Get enough rest. Laugh every chance you can. Walk, breathe, sing, dance. Remain exalted and joyously in love with life, this is your birthright. As each of us participates actively in this way of life, we will embolden our spirit and embody change in the world.

Life is challenging, and we create suffering by not opening to who we truly are: "spiritual beings on human journeys". We must recognize that our future is manifesting right now with each thought, each belief, each action. In the 8 year those beliefs can and will amplify. The 8 is our Universal energy for 2006 and everyone will be affected by this idea.

Prayer for 2006

Great Spirit-God of Creation-May I manifest my highest experience of your magnificence into this world of physical reality with the intention of not distorting your perfection. May the axiom "as above-so below" provide an infinite mantra of remembrance and knowledge that "spiritual empowerment" comes before "worldly power."

YOUR PERSONAL YEAR

Your own personal year can be anything from 1 to 9 and is calculated with numbers from your birth date and the number of the calendar year. Here is a little taste of the years' qualities to jog your memory and awareness. Add your day and month of birth (not the year) to the number 8, if the result is a two digit number, add those together and reduce to a single digit, that is your personal year.

If 2006 is a:

- 1: Recognize that there is only one of you on the planet and you have a unique contribution to give this world.
- 2: Do as Mother Theresa says "do ordinary things with extraordinary love". Be a force for healing in the world.
- 3: Find your part in the community and vitalize others with your enthusiasm. Communicate-be spontaneous and creative with thought and action.
- 4: Build a stronger foundation under your life by using discipline as a life enhancing experience. Take care with your body, home, family and work.
- 5: Allow the power of transformation to shift your position or beliefs so you find more freedom. Have the courage to stand in the middle of change with an open heart.
- 6: Bring your life into greater balance and harmony, so that you may help balance the world. Recognize the unconditional love that is always available to you.
- 7: Look deeper inside, take time to reflect, be willing to tell the truth as you see it without expecting anyone else to do it your way.
- 8: Manifest your highest ideals into form without distortion. Vitalize your financial reality and share it with those in need.
- 9: Surrender all that might impede your connection to your highest self and serve. " Ask not what your country can do for you, ask what you can do for your country" (or friend, family, community).
